TECHNICAL SKILLS

Programming Languages

- Java
- Python
- C
- Dart

Web and mobile Development Technology

- HTML
- CSS
- JavaScript
- Bootstrap
- Antd
- React
- Nextjs
- NodeJs
- Flutter
- ExpressJs
- React Native
- Nestjs
- Angular
- SpringBoot
- Rust

Database Management Systems

- MongoDB
- Firebase
- MySQL
- PostgreSQL

Version Controll System

- Git
- Github

Project Management Tool

- Jira
- Discord
- Notion

IDEs

- Visual Studio
- Android Studio
- Code Blocks

Application & Tool

- Figma
- Postman
- Arduino
- Canva

SATHISKA GUNARATHNA

SOFTWARE ENGINEER

ABOUT ME

I am a Third Year Information Technology(IT) Undergraduate at University of Moratuwa with a strong interest in software development, AI, and embedded systems .I'm eager to apply my skills to solve real-world problems.

EDUCATION

University of Moratuwa

B.Sc. (Hons.) in Information Technology | Expected 2026

Current GPA : 3.42 out of 4.00 - (upto Level 02 semester 02)

Level 02: semester 01 - 3.77

Level 02: semester 02 - 3.59

D.S. Senanayake College, Ampara | 2017 - 2021

GCE Advanced Level (2021) - Physical Science Stream

- Z-score: 2.0681
- Combined Mathematics A | Chemistry A | Physics A

GCE Ordinary Level (2017)

- A6 B2 C1

WORK EXPERIENCE

Software Engineer Intern (Full-Time) - Vectorium Labs (March 2025 – Present)

- Worked on multiple US-based client projects, delivering both frontend and backend solutions.
- Utilized Next.js for frontend and backend development to build scalable web applications.
- Managed and maintained PostgreSQL databases to ensure reliable data storage and retrieval.

Crytec Labs(Pvt) Ltd - part time (April 2024 - Aug 2024)

- Gained hands-on experience as a Software Engineer using Next.js, Node.js, React, and Flutter technologies.

PROJECTS

Sport Management System (Level 02 Software Project)

This sports management system is a software solution that simplifies various sports-related tasks, such as scheduling games, player management, registrations, real time notification tracking, and event planning. It serves as a centralized online platform, catering to administrators, coaches, players, team managers, and event organizers, ensuring a more organized and efficient sports management experience. The project was guided by BISTEC Global, providing mentorship and expertise in its development.

Technologies - React , Express.js, MongoDB , AWS EC2

Role - Team Leader , Full Stack Developer

[Click to see the Demo](#)

RiceUp Mora Website 2023 - University Of Moratuwa

As the Developer, I'm thrilled to showcase our collaborative effort in developing a cutting-edge platform dedicated to fostering internship opportunities for undergraduates at the University of Moratuwa.

Technologies - React , Firebase

[Click to see the Demo](#)

Cloud Based Technology

- AWS
- Vercel
- Contabo

Machine Learning

- Tenserflow
- Keras

CETIFICATES

- [Fundamental of machine learning](#)
- [Git & Guthub](#)
- [Reactjs](#)
- [CodeRush Hackathon](#)

LANGUAGES

- English (Fluent)
- Sinhala (Fluent)

NON-TECHNICAL SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

INTERESTS

- Reading
- Music
- Movie & Tv series
- AI

VehicleMart – Online Vehicle Rental Platform

Developed a full-stack vehicle rental web application that allows users to list and rent vehicles such as cars, vans, and bikes. Integrated real-time traffic analytics using Grafana and deployed the platform on Contabo hosting to ensure reliable access and performance.

Technologies - Nextjs, Express.js, MongoDB , Docker , Contabo

[Click to see the Demo](#)

GU Language Center Student Registration and Management System

Collaborated with a colleague to create a student record system for G.U. Language Academy, enhancing Cambridge English exam preparation.

Technologies - React , Express.js , MongoDB , AWS EC2

Role - Team Leader , Full Stack Developer

[Click to see the demo](#)

Built a website for a USA-based children’s story writer (Freelance project)

This web-based application is designed to facilitate book cover design as the author's go-to hub for maximum impact and publicity, offering a dynamic showcase for engaging with the audience through event posters, detailed information, and more.

Technologies - React , Nodejs , Expressjs , MongoDB , AWS EC2

Role- Team Leader , Full Stack Developer

Coca-Cola Employee Management System (On going) - Coca-Cola Company

This platform makes employee management easier and more organized, offering a simple and user-friendly way to handle different administrative tasks. Our hard work and innovative ideas have resulted in a tool that helps the company run more smoothly and achieve its goals more efficiently.

Technologies - ReactNative , Express.js , MongoDB

E-Commerce Platform for Clothing Brands

Contributed as a Full Stack Developer to a user-friendly e-commerce platform connecting customers with clothing brands. Implemented frontend, backend, and Docker-based deployment to enhance scalability and streamline development.

Technologies - React , SpringBoot , MySQL , Docker

ACHIEVEMENTS AND PARTICIPATIONS

CodeRush(2023)

A Coding Competition organized by INTEC, Faculty of Information Technology, University of Moratuwa. Our team, codeSaki, secured the 4th place in the competition.

Duothan 4.0 (2023) - Finalist

A Web design Competiton organized by IEEE society University of NSBM.

MoraXtream(2022) - participate

A Coding Competiton organized by IEEE society University of Moratuwa.

EXTRACURRICULAR ACTIVITIES

IEEE student Branch - University of Moratuwa

- MoraXtream 7.0(2022) Hackthon web design commitee member
- RiseUp mora(2023) web team member
